## General Notes: Husband -

Preston;English-Scottish, one who came from Preston (priest's homestead), the name of many places in England, or from the barony of Preston in Midlothian. Preston is or was a local Scottish name of a place, now more often described as Craigmillar in Midlothian. It could, if the English origin is agreed, have come from Preston in England. Preston is one of several of the noble houses that came from Hungary in the train of Atheling to Scotland, with the future Queen Margaret.

## General Notes: Husband - (cont.)

**The evidence we have to support the parentage of Daniel is the following:**

**Evidence:**

**Obit names brother John Hamilton and sister Ella Buck.**

**Mother Lyida obit says three children lived to see her die**

**Mother Lydia in 1900 census says she had 10 children and 3 were living in 1900**

**Death cert of sibling naming parents.**

**Since Ella Buck's death cert names her parents, this is confirming evidence, not just circumstantial, that Joseph's parents are the same as his sisters.**
