

## RUBBER PLANT UP FOR SALE.

**Bid of \$118,500 for United and  
Globe Co. Tentatively Accepted.**

*Special to The New York Times.*

TRENTON, N. J., April 27.—Plant land and equipment of the United and Globe Rubber Corporation were put under the auctioneer's hammer here today, on order of the United States District Court. J. Philip Bird of Jersey City and Edward C. Rose of Trenton are the receivers.

B. A. Small of Philadelphia, described as a factory speculator, made the high bid of \$118,500 for the entire property, and this was tentatively accepted. The company's assets were then divided into 656 parcels. If the total offered in this way exceeds the Small offer, Small's bid will be rejected. Small made the high bid of \$50,000 for the land and buildings, without equipment.

The company was placed in the hands of receivers in July, 1923, and recently has been operated by a special agent named by the Federal Court. The receivership action which resulted in today's sale was brought by Shafer & Meyer of New York, dealers in crude rubber, a creditor.

The final purchase offer must be approved by the Federal District Court before the deal can be closed and is subject to objection by creditors. The plant is now owned by Peter Vredenburg of Freehold, who purchased the factory in November, 1924, for \$250,000 at a receiver's sale.
