TO THE GRADUATES OF NORTHWESTERN STATE NORMAL SCHOOL

In presenting this bulletin to the public it was our endeavor to show the most complete list of graduates of this school ever published. It seems that with all the effort we have been unable to find the location of a few of the graduates. It may be, also, that some of the information secured is not exact.

We make this personal and direct request of each graduate – that you look over your record as printed in this bulletin and if it is not precise, notify us at once so that when the next bulletin is published the record may be corrected. Unfortunately, it is necessary to label the occupation of some of the graduates “unknown.”

If you have any information regarding these persons, let us know at once.

Address all correspondence to SECRETARY, Northwestern State Normal, Alva, Oklahoma

TO THE PUBLIC

To persons who have not started out on life's career, we offer this bulletin as an evidence of the large work that is being done by the graduates of this institution.

This school is a training school for teachers, and we firmly believe that the occupations listed in this graduate list show that the school is fulfilling its mission. We ask you to peruse carefully the information here given.

To persons who are young in life the information in this bulletin is offered as an inspiration. We see many successful men and women about us, and many of us wish to be as successful as they. When we inquire into their history we find that there was a time when they spent many years in preparing for the work in which they are now engaged. This long list of successful men and women bears witness to the fact that before success can be obtained, considerable effort must be put forth in preparation. Beautiful, useful and lasting structures are never builded except upon solid foundations.

Young man! Young woman! If you desire to attain success, YOU MUST PREPARE.
